

Why Choose Sun Flight Cases?

We Simply Believe In High Quality Materials.

Sun Flight Cases are made with high quality industry standards with a robust construction out of specially sourced 6mm, 9mm or 12mm phenolic laminated plywood, the highest quality hardware and structural grade aluminum extrusion.

Our specially sourced plywood is overlaid with a black phenol film on both surfaces.

Customisation & Branding :

We can create better exposure for your company

With digital media we can engrave your company logo on almost any flight case, to better expose your company and brand at an Extra Cost.

(*On Bulk Orders Only)

Customize your Case

Rental & Event Cases

Sun Flight Cases are the perfect solution for protecting your gear in the live event environment.

Heavy duty cases designed with your gear in mind, offering maximum protection, lightweight solutions.

We understand the pressure of events, Sun cases are designed to protect your equipment and ease your load-in and load-out, weight and colour options that suit your equipment or individual needs.

Colour Coded Cases

We love to Play with Colours.

With multiple colour options within the colour case range. This is great for colour coding your gear within our cases that could be used for pro audio and visual products at an extra cost.

In the end its your choice.

FLIGHT CASES & COVERS

Safer The Equipment...

Longer The Life !!!
